3. Declarant hereby amends Article V of the Declaration to add and incorporate the following Conservation Easement pursuant to the plans approved by the St. Johns River Water Management District under permit No. 40-031-0368, to subject the lands described in said permit to said easement. The Conservation Easement shall apply to all phases of the Riverbrook subdivision.

"35. Conservation Easement. The Declarant hereby reserves unto itself, its successors and assigns, and grants to the St. Johns River Water Management District, its successors and assigns, a perpetual, non-exclusive easement (the "Conservation Easement") over and across all areas noted on the Plat as jurisdictional wetlands.

No right-of-access by the general public to the Property or any portion thereof is conveyed by this easement.

This easement, and all terms and conditions hereof, shall run with the land and be binding upon and inure to the benefit of the heirs, successors, assigns, and personal representatives of the Declarant and the St. Johns River Water Management District.

This easement may be amended or cancelled, or portions of the property released herefrom, only by written instrument duly recorded in the public records of Duval County, Florida, and executed by the Declarant and the St. Johns River Water Management District or their respective heirs, successors, assigns and personal representatives.

The purpose of this Conservation Easement is to preserve the land predominately in its natural condition as a wooded water recharge, detention, percolation and environmental conservation area. In furtherance of the conservation easement, the conservation easement areas are subject to the following "Prohibited Activities" and "Permitted Activities":

c) Any activities and improvements required or permitted under St. Johns River Water Management District Permit No. 40-031-0368.

The St. Johns River Water Management District, its successors or assigns, shall have the right to enter upon the Conservation

Easement at all reasonable times and in a reasonable manner to assure compliance with the aforesaid prohibitions and restrictions.

The prohibitions and restrictions upon the Conservation Easement areas as set forth herein may be enforced by the St. Johns River Water Management District or its successor agency by proceedings at law or in equity including, without limitation, actions for injunctive relief. The provisions of this Conservation Easement restriction may not be amended without prior approval from the St. Johns River Water Management District.

The Association and all subsequent owners of the conservation easement areas shall be responsible for the periodic removal of trash and other debris which may accumulate on such conservation easement area.

All rights and obligations arising hereunder are appurtenances and covenants running with the land of the Conservation Easement area, and shall be binding upon and shall inure to the benefit of the District and its successors and assigns. Upon conveyance by the Declarant to third parties of any land affected by this easement, the Declarant shall have no further liability or responsibility hereunder."
